

# Knoxville

Genuine raw energy and a captivating melodic sensibility.

This is how Knoxville is best described. However, Knoxville emphasize that music must be experienced and heard. Therefore, the Danish rock band prefers to let the music speak for itself.

So far, the band has released a single to several Danish radio stations as well as one British. Knoxville has toured Denmark, supporting Utah, and has played the Danish Roskilde and Skanderborg Festivals, but the band has its sights set on a lot more.

Knoxville has recorded six demo songs with different producers in order to experiment with different sounds. Some of these songs are available on the band's web site.
